Re: Decommissioning plan for Shieldalloy Corp in Newfield – Gloucester County

Dear Mr. Steinberg,

At the regular meeting of the Mullica Township Board of Education held on February 12, 2007, members held discussion regarding the proposed plan for decommissioning of the Shieldalloy Metallurgical Corporation site. Mullica Township is located 22 miles from the site in question. The board members are very concerned and opposed to a nuclear waste site location in South Jersey. The potential health hazards are enormous. Children are in danger. Environmental influences have been proven to negatively affect children. The NRC, EPA and NJDEP must develop a plan in a safe location. We are fearful that the Newfield site is not an environmentally secure location.

The Board of Education has approved adoption of a Resolution imploring the NRC, EPA and NJDEP to exercise their jurisdiction over the Shieldalloy decommissioning plan.

Enclosed is the Resolution. As U.S. Environmental Protection Agency Regional Administrator, we strongly urge your support in a proper resolution to the proposed plan for decommissioning of the Shieldalloy Metallurgical Corporation site.

Sincerely,

I. Elizabeth Edwards
